Yeji Park

Email: yejipark@unist.ac.kr **Web**: https://yeji-park.com/

Research Interests

Human-Centered AI, Ubiquitous Computing, Wearable Interactive Computing, Human-Computer Interaction

Education

Ulsan National Institute of Science and Technology (UNIST) *March 2025 — Present*

M.S. in Artificial Intelligence GPA: 4.2/4.3
Supervisor: Taesik Gong

Ulsan National Institute of Science and Technology (UNIST) *March 2020 — February 2025*

B.S. in Electrical Engineering and Design *(dual major)* GPA: 3.39/4.3

Publications

Preprints & Under Review **: Co-primary authors*

[Pr.2] Can Agents Work for Everyone? Cross-User Reliability for Mobile GUI Agents in Personalized User Interfaces *Under review*

Yeji Park*, Jaeyun Shim*, and Taesik Gong
Preprint

[Pr.1] Effects of Stress on 3D Interface Interaction Techniques *Under review*

Mingyu Han, Yonghwan Shin, **Yeji Park**, Gangtae Park, and Ian Oakley.
Preprint

Conferences and Journals

[C.2] ExPerT: Personalizing LLM Responses to Users' Domain Expertise via Query-Wise Semantic and Keystroke Behavioral Cues *ACL'26 main track, long*

Yeji Park, Jiwon Tark, and Taesik Gong.
DOI: 10.18653/v1/2026.acl-long.959
ACL'26: Proceedings of the 64th Annual Meeting of the Association for Computational Linguistics (Acceptance Rate: 19%)
🏆**SAC Highlighted Award, Top 2% | 🏆Oral Presentation, Top 4%**

- *Design ExPerT, a query-wise LLM personalization system that infers user expertise from query text and keystroke dynamics to tailor responses.*

[C.1] GazeHandSync: Mitigating Late-Trigger Errors for Seamless Gaze-Hand Interactions *ETRA'25 short*

Yeji Park, Jiwan Kim, and Ian Oakley.
DOI: https://dl.acm.org/doi/10.1145/3715669.3723126
ETRA '25: Proceedings of the 2025 Symposium on Eye Tracking Research and Applications (Acceptance Rate: 33.3%)
🏆**Oral Presentation**

- *Investigated the effects of gaze and hand gesture complexity on gaze-hand coordination error rates in gaze-pinch interactions and designed the compensation system.*

Workshops, Posters, and Demos

[W.1] The Impact of Gaze and Hand Gesture Complexity on Gaze-Pinch Interaction Performances *Ubicomp/ISWC Workshop'24*

Yeji Park, Jiwan Kim, and Ian Oakley.
DOI: https://dl.acm.org/doi/10.1145/3675094.3678990
UbiComp '24: Companion of the 2024 on ACM International Joint Conference on Pervasive and Ubiquitous Computing
- *Investigated the effects of gaze and hand gesture complexity on performance and error rates in gaze-pinch interactions.*

Domestic Conferences and Journals

[D.1] Wishes: An Emerging Media Art For Improving Reliance in a Post-Pandemic Era *DSUS'22*

Yeji Park and Kyungho Lee.
2022 한국디자인학회 가을 국제학술대회 논문집 – 대학생학술대회 구두발표 : 전시 경험
- *An interactive media artwork to help individuals recover psychological health by experiencing 'flying balloons' on the web.*

Awards & Honors

SAC Highlight Award *ACL'26*

- *ExPerT: Personalizing LLM Responses to Users' Domain Expertise via Query-Wise Semantic and Keystroke Behavioral Cues*

BBB: Revolutionising Cross-Language Communication Services in a Multilingual World *reddot'23*

reddot winner 2023, Brand & Communication Design
Collaborated with Seoyeong Hwang, Juhyeok Yoon, Sangyun Lee
Role: UI/UX design
Supervisor: Kyungho Lee (Department of Design, UNIST)
- *Identify and leverage AI-human roles in human interpreting services over the phone, address the globalization of interpreting requests, and resolve boundary blurring between providers to create a flexible user experience*

National Science & Technology Scholarship *Spring 2020 – Fall 2022*

- Fully funded Korean government scholarship for undergraduates (six semesters)

Intellectual Property

Patent

LLM Response Personalization Based on User Expertise Utilizing Query-Level Semantic and Behavioral Cues *Korean Patent*

Taesik Gong and **Yeji Park** (Filed: November 19, 2025, No. 10-2025-0175678)

Software Copyrights

Conversational Traffic Agent Using LLMs with Traffic Information and User Context *Korea Copyright Commission*

Taesik Gong and **Yeji Park** (Application received: October 1, 2026)

Academic Services

Reviewer

- ACM CHI 26
- ACM CHI Poster 26

Student Volunteer

- ACM ETRA 25

Teaching

On-Device AI for Smart Manufacturing (NOVA508, UNIST) Fall 2026

Teaching Assistant

Mobile Computing (CSE465, UNIST) Spring 2026

Teaching Assistant

On-Device AI for Smart Manufacturing (NOVA508, UNIST) Spring 2026

Teaching Assistant

Computer Networks (CSE351, UNIST) Fall 2025

Teaching Assistant

Research Grant

Robust Vision-Language-Action Integrated On-Device AI for Innovations of Manufacturing Industry *September 2025 — Present*

Participating Researcher (AI Star Fellowship, PI: Prof. Jaeyoung Sim)
- *Institute of Information and Communications Technology Planning and Evaluation (IITP)*

Personalized On-Device Multi-modal Small Language Model for Memory Assistance *March 2025 — Present*

Participating Researcher (PI: Prof. Taesik Gong)
- *National Research Foundation of Korea (NRF)*
- *Outcome:* ***ExPerT***

Developing Multimodal Generative AI Talent for Industrial Convergence *March 2025 — Present*

Participating Researcher (PI: Prof. Jaeyoung Sim)
- *Institute of Information and Communications Technology Planning and Evaluation (IITP)*
- *Outcome:* ***ExPerT, Conversational Traffic Agent Using LLMs with Traffic Information and User Context***

Multimodal Interaction for Augmented Reality *January 2024 — February 2025*

Participating Researcher (PI: Prof. Ian Oakley)
- *National Research Foundation of Korea (NRF)*
- *Outcome:* ***GazeHandSync***

Project

O-K Text *March 2023 — December 2023*

Supervisor: Ian Oakley (School of Electrical Engineering, KAIST)
- *Designing a text entry system in Hangul inputs using multimodal interaction of gaze for consonants and hand pinch for vowels*
- *Undergraduate research, Department of Design, UNIST*

BBB Korea Interpreter App Redesign *(Project)* *November 2022 — May 2023*

Collaborated with Seoyeong Hwang, Juhyeok Yoon, Sangyun Lee
Role: Interpreter requests app UI design for IOS
Supervisor: Kyungho Lee (Department of Design, UNIST)
- *Redesigned and launched an interpreting request and service provision app in collaboration with BBB Korea.*
- **[App Links]**

Research Internship Experience

Ubiquitous Artificial Intelligence Lab *(Undergraduate research intern)* *December 2024 — February 2025*

Supervised by Professor Taesik Gong, Department of Computer Science, UNIST
Human-centered AI

Wearable Interactive Technology Lab *(Undergraduate research intern)*

January 2024 — November 2024

Supervised by Professor Ian Oakley, School of Electrical Engineering, KAIST
Gaze-based VR interaction research

Expressive Computing Lab *(Undergraduate research intern)*

August 2022 — June 2023

Supervised by Professor Kyungho Lee, Department of Design, UNIST
Human-centered AI application
